

Your Nash Dealer is interested in seeing that you receive the utmost satisfaction from your car throughout its lifetime. This Nash Owner's Service Policy is designed for this purpose. Make full use of the provisions of the Policy.

Your new Nash is one of America's finest cars. Give it the care it deserves. We make these suggestions.

- Follow factory recommendations for operating speeds when the car is new.
- Always bring your car to your Nash Dealer for the skilled service that only factory-trained mechanics, using Nash-approved tools, parts and equipment, can provide.

### MAINTENANCE SUGGESTIONS

1. Check motor oil at each filling of gas. Follow recommendations for complete lubrication. See Owner's Manual for lubrication chart.
2. Have safety inspection made at regular intervals. (Brakes, lights, steering, horn and windshield wiper.)
3. Keep tires properly inflated.
4. Distilled water should be added to the battery at regular periods.
5. Keep radiator filled at all times. Provide proper anti-freeze solution during winter months (Rust and Corrosion Preventive at all times).
